

Thank you for your interest in our Canna Accounts program. Due to the overwhelming interest in our program that has been created by recent news articles, we've had to suspend taking new applications at this time until we work our way through the significant backlog of existing applications. Please check with us again in a few months. Also, please note that we are not accepting applications from entities not operating in Sonoma County or who have not had their cannabis licenses in place for a least one year. All inquiries on Canna Accounts should be emailed to our CEO, Chris Call at chris@northbaycu.com.

We are doing our best to encourage other banks and credit unions to also provide services to the cannabis industry. You can help bring about a change in the banking situation by being a vocal proponent of safe harbor protection for financial institutions serving the industry and de-scheduling cannabis as a Schedule 1 drug. Please contact your federal legislative representatives and let your voice be heard.
